560 ready to graduate

Rev. Robert Lowery to receive honorary doctorate

PUC Press release

Long-time Gary minister and community leader, Rev. Robert Lowery, will receive an honorary doctoral degree. Dr. Lowery, pastor of Gary's St. Timothy Community Church since 1957, also has served Northwest Indiana in numerous capacities for more than four decades.

"Rev. Lowery has responded to the many needs of our local communities by giving generously and continuously of himself," said Purdue Calumet Chancellor James Yackel.

"He has been involved in countless endeavors that have benefited northwest Indiana and its people, including a strong commitment to education in general and higher education specifically."

Dr. Lowery, who will receive an honorary Doctor of Humane Letters degree, has been referred to as "the conscience of northwest Indiana." When he was called 39 years ago to begin his ministry at St. Timothy, the church was a fledgling congregation of some 35 members. Under his leadership, it has developed into one of the region's most active and community-oriented congregations of faith.

Early in his ministry, he established Boy Scout Troop 53 and continues to serve as scoutmaster. In addition, he is spearheading a church-sponsored and supported housing development in an area adjacent to the church.

Dr. Lowery ministers daily at six northwest Indiana hospitals. Additionally, his ministerial outreach touches local police

Rev. Robert Lowery, of Gary, will receive an honorary doctorate for his many years of community and spiritual service at this year's graduation ceremony.

officers, as founder and chief of the Gary Police Chaplains, and individuals who are incarcerated. He also serves as a Child Protection Team Member for the Lake County Welfare Department.

His extensive involvement with other community organizations features a strong tie with education, including membership with the Gary Education Foundation and the Purdue University Calumet Chancellor's Advisory Council.

Student Government 'overthrown'

BY GREGG LEONARD
Editor-in-Chief

Purdue Calumet's Student Government almost had a complete overhaul this spring. Five of the six current SG members seeking election were soundly defeated as students banded together to seek change.

Voter turnout this year was four-times the number that voted last year, with 285 people voting.

Jarrett Mitchell, the current president of the Black Student Union, is the President.

The lone remaining SG member is Senator Roberto Ceballos.

Student Government members are elected in the spring and serve a one-year term starting in the fall.

Student Government for the 1996-1997 school year

Ceremony takes place outdoors

Chronicle Staff Report

PUC will celebrate its 30th spring commencement Sunday, May 19 on the west campus lawn at 1:30 p.m. Of the graduating class of 560 students, 425 are expected to participate in graduation festivities.

Purdue University President Steven C. Beering and Purdue Calumet Chancellor James Yackel will address the candidates and award associate, bachelor's and master's degree diplomas.

Also during the graduation program, distinguished undergraduate degree candidates will be recognized.

Offering the traditional "response" on behalf of the Class of 1996 is Marie

Witting of Hammond. The 27-year-old political science major has been a member of the Purdue Calumet chapter of Alpha Chi national academic honor society and served as president of the university's chapter of Pi Sigma Alpha national political science honor society.

She plans to pursue graduate study next fall at Purdue University's West Lafayette campus.

In case of inclement weather, commencement exercises will be held in Purdue Calumet's Physical Education Recreation Building, south of 173rd Street, east of Woodmar Avenue.

This year's class brings to more than 25,700 the number of degrees granted at Purdue Calumet.

Graduate success stories

Student leaves college football to get serious about hotel management

Ford Heights, Ill. resident Roderick Buckner, 26, left his college football career to get serious about the hotel management work he loves.

"I liked what it was," he said. "I like being around people. I watched how the managers worked, and I became infatuated with the job. I just love it."

Buckner, who is a bachelor's degree candidate in restaurant, hotel, institutional management and tourism (RHIT) at Purdue University Calumet, serves as the food and beverage supervisor at the Alsip, Ill. Holiday Inn and previously worked nine years at the Ravisloe Country Club in Homewood.

Buckner, a former high school football standout at Bloom Trail High School, began his college education with a football scholarship at Southern Illinois University. He came to Purdue Calumet when his education became his top priority.

"I just gave it (football) up," he said. "I probably wouldn't be playing football all my life so I figured I'd get on with my life. And, it has seemed to work out."

According to Buckner, he chose Purdue Calumet because he liked the RHIT program there, and the university was close to his home, enabling him to also hold a job. Additionally, he is a teaching assistant at Purdue Calumet, making him, he said, "very, very busy."

"I try to manage my time pretty much by keeping organized. My calendar is always filled," he said. "I try not to waste time."

Buckner was named to Who's Who Among Students in American Colleges

ADMINISTRATION UPDATE

A memorable day
of a memorable year

Our year-long, 50th anniversary observance culminates today with the most celebrated event of the university year.

This 1995-96 academic year has afforded Purdue University Calumet numerous opportunities to tell our story and draw attention to our institution in special ways.

But of the many distinctions Purdue Calumet has celebrated the past year, none is more significant than the 25,000+ associate, baccalaureate and master's degrees that have been conferred at this campus.

A day of perspective

During what has been at Purdue Calumet a golden year of celebration, reflection, opportunity and vision, it is graduation day that puts everything into perspective.

As graduates, friends and family note below Purdue Calumet's 50th anniversary year highlights, it is fitting to ponder Commencement Day as a link between preparation and achievement,...between lessons learned and lessons applied,...between the quest for and the realization of success...between learning how to and then actually becoming the best one can be.

A year of special happenings

Congratulations, graduates! As members of the Class of '96 you have shared in a milestone year unmatched in Purdue Calumet history. Today's Commencement concludes a year of special happenings that include the following:

- the Indiana General Assembly approved construction of a desperately needed classroom/office building—with construction expected to begin later this year.
- after a two-year decline, spring enrollment increased to 8,976—the second highest spring total in our history.
- new associate degree programs in emergency medical services and nutrition, fitness and health were introduced.
- 15 skill-enhancing, credit certificate programs for professionals were introduced last fall.
- several endowed scholarships were established, contributing to the more than \$315,000 that will be awarded in university scholarships during 1996-97.
- our south Lake County presence was expanded to three sites this spring, as credit courses were offered at Merrillville (Hellenic Cultural Center) and St. John (Lake Central High School), as well as Crown Point High School.
- a Nobel Prize winner and renowned science educator (Leon Lederman) visited our campus and lectured.
- so did a world class marathon/American record holder (Joan Benoit-Samuelson)....
- and a NASA astronaut (Janice Voss)...
- and the chairman of President Clinton's Council of Economic Advisors (Joseph E. Stiglitz)...
- and a CBS news correspondent (Martha Teichner)...
- and an award-winning author, actor and humorist (Jean Shepherd)...
- and the president of the Federal Reserve Bank of Chicago (Michael Moskowitz)...
- in an unprecedented turnaround, our women's basketball team rebounded from an injury-plagued, abbreviated season a year ago to win the conference championship and earn a berth in the NAIA Division I women's basketball tournament, compiling a 27-5 record.
- Internet access was made available and electronic mail accounts were activated for all students.
- Professor of History Lance Trusty wrote a book about our half century heritage, *Purdue University Calumet: The First Fifty Years...* and it's on sale for \$25 through the Office of Advancement (O-318).
- the awarding of nearly 1,100 degrees.

A great ending to a grand year!

The Chronicle

Gregg A. Leonard, Editor-in-Chief
Amanda Tuohy, News EditorGraduating from a
commuter campus

Spring is here, as all the rain of recent weeks has shown us. It is graduation time, a time of change

As students walk down the aisle to receive their parchment, there is one thing on their minds. No, it is not the start of repaying student loans, it is the prospect of a good job of few months down the road. Traditionally, a wet behind the ears college 'kid' hitting the job market for the first time is the image many people have of graduating students.

For many of today's students at a commuter campus such as ours, entering the job field is not a terribly new thing. Many have already been wearing workingman's shoes for years, and originally returned to school in order to either better their position in their jobs through the attainment of a degree, or to enter an entirely new field of interest. We have many degrees available in the School of Professional Studies and the School of Liberal Arts and Sciences that allow a working person to learn new skills.

It is the pursuit of dreams, the striving to be the best one can be that brings a lot of students to our campus. The drive to achieve more in life, to be more than what they are must be there in order for students of PUC to continue their education. With many students having other responsibilities such as being a parent, holding down a job (or two), paying bills, or being a homeowner, putting school first is often hard to do. That is why many students go part-time and for many years. But the ones that have the stick-to-it attitude and finish their degree, they are the ones that have no worries about their future.

This point was driven home as I listened to the brief biographies of the Departmental outstanding students during the student awards banquet. Most were non-traditional students. They were older, often married with children, and held down a job, while also being active in their communities. As I listened, I wondered when these people had time to sleep.

The Pride of Purdue - the convenience of Calumet is more than a motto. The convenience of PUC is what allows students to do all these things. It is the nature of our campus.

Thank you, graduates, for your hard work and dedication to yourselves and PUC.

Outstanding students recognized at banquet

BY REGINA HURST
Staff writer

Recognition. Some strive for it, while others merely appreciate it when it happens. It happened recently at the 23rd annual Student Awards Banquet held Friday, April 26. The dinner and awards ceremony took place at Villa Cesare in Schererville.

Members of the PUC administration were on hand to congratulate and present awards to students. Vice Chancellor Leo Bryant gave special recognition to the 13 students inducted into "Who's Who Among Students in American Universities and Colleges."

Vice Chancellor Sandra Singer, LAS Dean Michael Moore, and SPS Dean Gerald Silver presented "Outstanding Senior" awards to distinguished students of each department.

Student Organizations nominated and voted on "Outstanding Student Leader" and "Most Active Student Organization." The winners for the '95-'96 year were Juan Casas for "Outstanding Student Leader" and a tie for "Most Active Student Organization" between Pi Sigma Alpha (Political Science Honor Society) and Sigma Lambda Beta Fraternity. These awards were presented by Larry Liddle, director of Student Activities.

Com. Department awards

Chronicle Staff Report

The Department of Communication and Creative Arts recently announced their student awards for the 1995-96 school year. Students were recognized at the recent "Comm Career Night" held April 23rd in Alumni Hall.

Outstanding Undergraduate Student in General Communication:

Lee Rockliff
& Mary Haynie

Outstanding Undergraduate Student in Organizational Communication:

Jim Miller

Outstanding Undergraduate Student in Public Relations:

Pam Utterback

Outstanding Undergraduate Student in Radio and Television:

Angel Fugate

Graduate Student Teaching Award:

Corya Channing

Graduate Student Research Award:

Rochelle Robertson
and Sheri Gouwens

Other C&CA Departmental Recognition

Student Research highlighted in poster session during Com. Career Night:

Lisa Lisenski-Topp
Pam Rumer
Sheri Gouwens
Rochelle Robertson
Sabrina Summers

Graduate School Spotlight on Scholarship:

Chelsea Stalling
& Sherita Smith

Student Scholarship from Communicators of NWI (nominated by the department and awarded 5/9/96):

Sabrina Summers

Highly Edited deletes competition

Chronicle Staff Report

Through superb communication, ball movement and teamwork, Highly Edited, the Chronicle's team, took home their pride along with the title of Intramural Volleyball Champions.

After four weeks of scrimmage games in which They placed first with a 5-1 record, four of the five teams which made up the intramural volleyball league participated in a season ending tournament. Highly Edited came in second with a 4-1 record with their only loss coming from Them.

Highly Edited quickly advanced to the final round by beating The Independents in two straight games. Highly Edited allowed The Independents only 11 points.

While awaiting their entrance to the finals, members of Highly Edited psyched themselves up by making paper airplanes and reading "Night of the Gargoyles."

Highly Edited looked for revenge against Them in the finals and defeated them 15-10 and 15-8.

"We really played like a team today," said team captain Gregg Leonard of their success.

"I was worried about having to play the tournament with rally rules, but we played aggressively and relatively mistake free. The final game was probably our best game this season. We had to play our best to beat Them," added Leonard.

Members of Highly Edited include Ray Liskey, Michelle Stickle, Melissa Mohan, Doreen Andraszkiwicz and Amanda Tuohy and Sean Kingston.

Photo by Sean Kingston

Ray Liskey goes vert for one of his many spikes during the recent intramural volleyball season. Highly Edited, of which Ray is a member, won the intramural championship May 5.

Two new ways to help pay for classes

BY GREGG LEONARD
Editor-in-Chief

Editor's note:
The Chronicle in the April 17 issue printed erroneous information regarding new payment plans. The following is a corrected version.

Beginning in Fall of 1996, Purdue University Calumet will be partners with USAGroup in offering two new payment plan options. Students will have an option to choose from a 10-month or four-month plan.

The 10-month plan is for tuition and fees for the Academic year. There is a non-refundable processing fee of \$45. The plan begins in July and runs through April of the next year. Students may apply late for the payment plan in Aug. by contacting USAGroup. The student/parent

must enroll with USAGroup. Monthly bills will be sent and payments will be remitted by students to USAGroup.

A four-month semester plan is also available. This plan is for tuition and fees for one semester only. The plan begins in July and ends in Oct. Again, students registering in Aug. may still apply for the payment plan through USAGroup. There is a non-refundable processing fee of \$25 per semester.

For students who are eligible to register for the Fall semester, an introduction letter to the plans and application will be mailed to them. Another mailing will go out in late June to students who have not registered yet. The application may be mailed to USAGroup along with the processing fee or the application can be completed over the phone with

the processing fee paid by credit card.

For more information on the 10 month and four month plans, students can call 1-800-348-4607

Purdue will continue to offer an internal payment plan. A 40% down payment is required by the due date. Half of the balance is due by September 26 and the remaining balance is due by October 24. There is a \$10 processing fee. This fee will be refunded to the student if fees are paid in full before the first day of the semester.

Revisions (added classes after payment arrangements have been made) must be paid in full by the end of the first week of the semester, or student must make arrangements to add these classes to their existing payment plan.

Could you be a BERNES, or a Dragon?

SPV350 creates 'identity' for lingering smokers.

BY JOANNE M. LUKAS-PINARSKI
Staff Contributor

"What name can we give to people who congregate outside of buildings to smoke cigarettes?" This was the assignment given to the spring Creativity in Supervision class (SPV350) by Professor Dan Yovich.

Yovich directed the students to create a phrase or acronym for smokers who risk the elements to take those last puffs of their cigarettes between classes. You

know the ones that block the entrances to the buildings so non-smokers can wade their way through a cloud of smoke. Or if you are so inclined, the poor smokers who have to smoke outside and risk the elements due to insufficient indoor smoking areas.

The biggest dilemma facing the students was to pick a name that was neutral, being not for or against smokers.

Many of the students had negative feelings for those smokers and stated so in creating their names. Other students, who are smokers themselves, created names that suggested the smoker's plight and denial of rights.

All three of the SPV350 class-

es rose to the challenge and came up with creative and unusual names such as: "Butt Nuts," "Ash Holes," and "Dragons,"

The acronyms created were also interesting such as: BERNES - Banned Employee Relegated Near Entryways Smoking; SCOUT - Second Class Outcasts Under Torment and; COADS - Collection Of Addicted Smokers.

In the end, through a voting consensus, we chose the label created by several students of "DRAGONS." So the next time you are plagued with smoke by the door of a building or you are taking a smoking break outside, keep in mind and use the term "Dragons." It will catch on one day.

**A part-time job.
A full class schedule.
A full social calendar.**

Where did he find time for \$9.00 an hour?

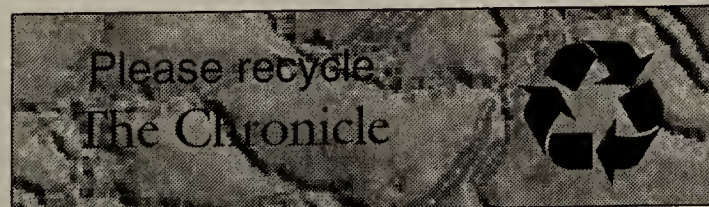

It's easy with RPS. We realize people have lives outside their jobs. That's what makes us such a logical choice for part-time work. You already have enough things to worry about, so finding an accommodating job shouldn't be one of them. RPS has opportunities available for:

Package Handlers

We offer an outstanding starting pay - \$9.00-\$9.50/hour with 50¢ an hour for tuition added after 30 days. In addition, we have shifts available from early morning to late night to accommodate your already busy schedule. And you'll work Monday through Friday, so your weekends will be free.

If this sounds like your kind of job, we'd like to hear from you. That is, if you can find the time! For consideration, please apply in person or call:
RPS, Inc., 3640 W. 179th St., Hammond, IN, (219)989-0832. RPS, Inc. is an equal opportunity employer.

RPS
A Caliber System Company

Credit Cards

- 12.9% APR Fixed
- No Annual Fee
(if used twice/yr)
- "Free" Extras

322-9516

**SAND RIDGE
BANK**

Late payment fee \$14, over credit limit fee \$20, annual fee \$25 if not used at least twice per year, cash advance fee 2% of amount of the advance but not more than \$4 or less than \$2.

Stories

Continued from page 1

for personal achievement.

"It was a personal goal to have my degree by the time I was 50," Joan said. "I'll continue to take classes for personal enrichment and to keep up with technology. It's an adventure."

Julie's goal has been to land a public relations job in the entertainment industry.

"I'm absolutely positive I will break into the field," Julie said. "It's my ultimate goal. I plan on bombarding the city (Chicago) with resumes."

Julie obtained an internship at Star Plaza Theatre in Merrillville which amplified her interest in entertainment.

"It was very exciting," Julie said. "It was always changing. The different talent would come in, and we would have to reach diverse publics in every way that we could."

Joan began college right after high school with an interest in becoming a math teacher, but put her education on hold.

"I wasn't sure what I wanted to do. I left, put it on hold, but I

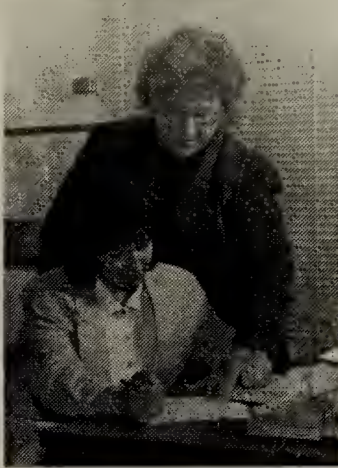

Photo courtesy of university relations
Joan, standing, and Julie McGill, mother and daughter, will graduate together at this year's ceremony.

always intended to come back."

Joan started back in the 1980s but left because of family commitments.

Julie was undecided about college, too.

"It was something I thought I would try," Julie said. "I never thought I would finish with the

determination I have now. I had no idea what I wanted to go into. I had no direction, but now here I am."

Joan returned to her studies at Purdue Calumet and Julie began her education there the same semester, fall 1991, by coincidence. Also - although not planned - they are set to graduate together.

"I'm proud of us both," Julie said.

Older student, mother wants to set good example for younger generation

Students attend college to learn about a particular field. But, Gary resident Corine Haywood, 55, went to college to learn about herself.

"I wanted to study about my peers and myself at the same time," she said. "I had elderly parents - they passed away in 1994 - and I wanted to know about them."

Additionally, the bachelor's degree candidate in sociology, gerontology option, hopes that by pursuing education she has set a

good example for her son, her nieces and nephews and neighborhood kids.

"I hope they see me as a person who will continue and not stop," Haywood said. "I would like to be a good example for the younger generation so they shouldn't lose sight of their dreams."

Setting a good example, Corine and her son, Gary Wesley Haywood, 14, have worked on some of their homework together.

"By me going to school I can help him with his homework," she said. "And, he helped me with my Spanish classes. We took Spanish at the same time."

Corine served as the corresponding clerk in the accounting department at Speigel's in Chicago for 16 years, where she handled customer complaints.

After the company "down-sized," she began her college career at Ivy Tech State College. She transferred to Purdue Calumet four years ago to pursue gerontology, but at the same time has earned a technical certificate in office administration from Ivy

Photo courtesy of university relations
Corine Haywood graduates with a bachelor degree in sociology, gerontology option.

Tech which she received this month.

In summing up her educational experience, she quotes from the Bible and thanks many.

"I can do all things through Christ which strengtheneth me." (Philippians 4:13). I give thanks to God, my family, friends and church family at Christ Baptist Church (Gary)."

Compiled by Chronicle staff from PUC press releases.

H.L. McLAUGHLIN

MBA PROGRAM

The Future Is Closer Than You Think.

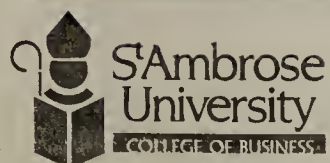

Earn Your MBA in just 12 months with our new one-year format!

Beginning August 1, 1996

With this new program, St. Ambrose joins an elite group of only five business schools across the country to offer the MBA in such a format. It allows students to concentrate on graduate-level education in business and get back into the corporate environment in just twelve months. Our practical approach makes it easier for you to get your degree, and easier to apply what you learn to the real world of business.

- Designed for college graduates no matter what your undergraduate major
- Nationally accredited by the Association for Collegiate Business Schools and Programs (ACBSP)
- Taught by distinguished faculty - blending academic credentials with practical experience
- 45 credit-hour program - identical to our nationally acclaimed evening program, the largest in the state of Iowa - with more than 650 students
- Designed to meet your individual needs
- Small classes that feature excellent student/professor interaction - "over 80 professors"
